# INSTALLATION PRECISION

Raise the bar on installation accuracy with **Cambium Installer**, the free mobile app that gives field techs the information they need to configure and properly align wireless broadband subscriber modules.

### **VALIDATE IN SECONDS**

Designed with input from field technicians and years of experience on millions of subscriber modules deployed, Cambium Installer validates configuration and alignment in seconds.

## DOWNLOAD THE FREE APP FROM OUR WEBSITE

### **CONNECT MORE SUBSCRIBERS**

Eliminate problems, and focus your manpower on connecting new subscribers as your network grows.

## **OPTIMIZED AIMING**

Increase performance with optimized aiming and automatically populate GPS latitude and longitude on every subscriber.

Cambium Installer is the new version of cnArcher
